

Teacher Guidance

Hello!

This **Whale of a Time Science Experience Pack** contains three experiences for students with extensions linking to deeper issues and concerns surrounding strandings, oil spills and plastic pollution. Lab sheets and links to the scientific method have not been explicitly mentioned in this pack. Still, with teacher guidance, there are plenty of opportunities to discuss variables and include the scientific method as you go. You will find lab sheets on the Twinkl site should you like to incorporate this into the experience.

In the Teaching Points download, you will find a materials list for each experience and teaching points that might be helpful to go through before beginning or as follow up points to ensure your students have made deeper connections. You can use the extensions according to the needs and interests of your students.

Disclaimer:

We hope you find the information on our website and resources useful. The activities set out in this resource are potentially hazardous. The activities are not suitable for all children and adult supervision may be required for some of the activities. It is your responsibility to assess whether the children in your care are able to safely carry out the activities and whether the children require adult supervision. You are responsible for carrying out proper risk assessments on the activities and for ensuring that activities can be carried out safely. We are not responsible for the health and safety of your group or environment so, insofar as it is possible under the law, we cannot accept liability for any loss suffered by anyone undertaking the activity or activities referred to or described in this resource. It is also your responsibility to ensure that those participating in the activity are fit enough to do so and that you or the organisation you are organising for has the relevant insurance to carry out the physical activity. If you are unsure in any way, we recommend that you take guidance from a suitably qualified professional.
